

OZO Phuket

Sleep, connect and explore Thailand's largest island with OZO Phuket as your base. This all-new hotel is a modern reimagining of traditional Thai-style canal front living, with low-rise accommodation wings, dining space and activity pool set around a series of original canals showcasing indigenous aquatic plant life and connected by foot bridges.

The shores of Kata Beach, one of Phuket's best surf beaches, are just a short stroll away from OZO Phuket through a keycard accessed side gate just steps from the pool.

Located right on Kata Road surrounded by great local restaurants and shops, OZO Phuket is set to redefine and exceed mid-market hotel expectations with contemporary interior design, innovative use of space, extensive landscaped grounds for guests to explore, and two separate pools - an activity pool designed for kids adjacent, and a free-form main pool for adults to lounge around and relax in

Sleep Tight

OZO is all about a great sleep experience, so travellers can enjoy more of what every destination has on offer. OZO Phuket's "Snooze Zone" consists of 255 guest rooms and suites across seven different categories in a series of five-storey buildings.

All OZO rooms offer guests high-quality DreamMaster beds which come with pillow-top mattresses and are aligned towards the window allowing either total black out, or natural light for early risers. The entry-level Sleep, Dream and Dream View room categories feature clever and functional design, with a snoozing and relaxed connectivity zone that features a desk with multimedia connection panels, a swivel-screen IPTV for direct streaming and a daybed. Bathrooms feature walk-in rainshower, an integrated wardrobe and luggage bench.

Our signature OZO room design features a mural wall highlighting the essence of the locality and OZO Phuket artistically showcases the charm of nearby beaches, their dramatic rock formations and iconic long-tail boats.

Premium room and suite categories offer additional space or elevated views, with many featuring private balconies. All rooms are fitted with motion sensor technology to optimise energy use, and a recycling system with water from the shower and vanity channelled towards the toilet flushing system.

Wake Bright, Stay Bright

After a fabulous night's sleep, guests wake to an energizing and invigorating breakfast in OZO Phuket's EAT restaurant, the destination for an extensive breakfast buffet and a-la-carte all-day dining, with a selection of Thai, Asian and international favourites complemented by artisanal coffee and locally-inspired cocktails. Diners have a choice of indoor air-conditioned seating or outdoor shaded terrace dining. Satisfy poolside cravings at the Pool Bar which offers a selection of cold drinks, pizza and snacks.

Play and Work

OZO Phuket welcomes everyone with not one but two swimming pools - a free form main pool as well as the Splash activity pool with waterslides and Ollie, our resident giant red Octopus water play feature. Cool off at 'Chill', an indoor air-conditioned relaxation space for reading, a game of pool or catching up on work with iMac workstations. With showers and storage lockers, 'Chill' is ideal for travellers arriving early or departing late at night. The hotel also offers a fitness room and a meeting room for up to 12 people. 'The Spot', OZO Phuket's main lobby, is the heart of the hotel with team members on hand to offer local knowledge and advice.

Step Out

OZO Phuket has the closest proximity to the beach amongst the other non-beachfront hotels in the area, and offers two pathways to the beach. A keycard accessed side gate near the pool gets you to the beach in just minutes. Alternatively, exit the hotel from the main entrance for a more leisurely stroll past local shops and specially-commissioned street art created by local students in partnership with art organisation: 4-studio. Painted on the hotel's exterior wall, the art features Ollie the giant red Octopus exploring several of the nearby attractions.

OZO Phuket is the ideal base from which to explore Thailand's largest island and the immediate Kata Beach, which is a great all-round holiday destination particularly ideal for young families. The hotel offers easy proximity to many amazing viewpoints and beaches, is surrounded by fine dining and delicious mid-range restaurants, excellent shops, the famous night market and a vibrant nightlife scene.

About OZO

Sleep. Connect. Explore. However you spend your day, OZO wants you to wake up feeling inspired, recharged, and ready to roll. OZO hotels are midscale properties aimed at creating buzz and zest downstairs – and peace and quiet upstairs. At OZO, everything we do is designed to offer a great sleep experience for smart, savvy travellers on the go. We also know our guests are hungry for new experiences and always on the lookout for new discoveries. We stay in the know about the local best so you form a connection with the places you visit. OZO is currently present in Thailand, Hong Kong and Sri Lanka, with more properties opening in the coming years. Visit www.ozohotels.com.
